Let us demonstrate this to you.

Send for samples of work done with the Lettergraph.

When we send them, we will include full and complete information in regard to this equipment.

We will also send you the story of our new Lettergraph Type-setter, which is the most complete, and fastest type-setting device ever used in connection with duplicate letters.

This type-setter is so easy to operate that the principle can be learned in two min-
es. Mistakes are practically done away with by a self-adjusting guide between type-holder and type-container.

Ask for this complete story. There isn't room here to tell a tenth of it. Address Department A or telephone 8450 St. Paul.

OFFICE BUILDING DEPARTMENT

EQUITABLE BUILDING.

LOCATION

The location of the EQUITABLE and CALVERT BUILDINGS, facing on Calvert, Fayette and St. Paul streets and "plaza," is the best in the City, being opposite the COURT HOUSE, making both especially convenient for Lawyers, near the City POST OFFICE and one square from the CITY HALL.

SAFETY AIR CUSHIONS.

All elevators, in addition to being provided with every known SAFETY APPLIANCE, are equipped with IMPROVED AIR CUSHIONS. Only large Office Buildings in the City with Air Cushion Equipment.

WATER CURTAINS.

WATER CURTAINS and STANDPIPES connected with the Company's SPECIAL FIRE PUMPS afford full protection against fire.

HEATING.

The heating system of the buildings is of the VACUUM type, which allows for regulation of the temperature of the offices and halls.

WATCHMEN.

Watchmen patrol each building during the entire night, and the faithful performance of their trust is recorded by watchmen's electric time detector, connected with signal locks in every other room of each building and all halls.

CLEANING.

The cleaning of both buildings is done at night by the VACUUM SYSTEM removing all dust direct from the offices.

BUILDINGS.

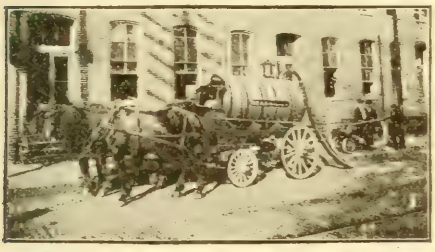
The EQUITABLE is nine stories high, exclusive of basement, and connects with the CALVERT by means of a covered bridge on the seventh floor. The CALVERT is twelve stories high, exclusive of basement. Both buildings of absolute fireproof construction.

CALVERT BUILDING.

ELEVATORS.

Of Improved hydraulic type, run DAY and NIGHT every day in the year. Electric light signal device. Each building has a freight elevator, thus preventing annoyance to tenants resulting from carrying packages and boxes on same cars used by passengers. The elevators in each building are in charge of a DISPATCHER whose duty is to regulate the starting of each car and take general supervision of this department alone.

CALVERT BUILDING AND CONSTRUCTION COMPANY, OWNERS.



Office, 663 Calvert Building, Baltimore, Md.
